

PERSONA MAPPING

Name: Lynbell Grace
Pernora
Age: 19
Course: BSIT
Student
Role: Library Use

Persona Responses

1. How often do you use the library?

I usually use the library 3–4 times a week, especially during exams or when I have projects to finish.

2. What do you usually do in the library?

I mostly study, do research, and sometimes borrow books. I also use it as a quiet place to focus.

3. What problems do you experience in the library?

The main problem I experience is overcrowding. It is hard to find a seat, and sometimes the environment becomes noisy.

4. Is it easy for you to find books? Why or why not?

Not always. Sometimes it is difficult because the library is crowded, and it takes time to look for the books I need.

5. Have you experienced overcrowding? How does it affect you?

Yes, especially during peak hours. It affects me because I cannot focus well, and I waste time looking for a place to sit.

6. Would you use an online system to reserve books or seats?

Yes, I would definitely use it because it will save time and make it easier to find available seats.

7. What features do you want in a smart library system?

I want to see real-time seat availability, have a seat reservation feature, and easily check available books.

8. Do you prefer digital books or printed books? Why?

I prefer printed books because they are easier to read and help me focus better, but digital books are more convenient. **Name:**

Charlotte Casimsiman

Age: 20

Course: BSBA Student

Role: Library User

Persona Responses

1. How often do you use the library?

I use the library about 2–3 times a week, mostly when I need a quiet place to study.

2. What do you usually do in the library?

I study, review lessons, and sometimes do research for school requirements.

3. What problems do you experience in the library?

Sometimes it is too crowded, and it becomes noisy, which makes it hard to concentrate.

4. Is it easy for you to find books? Why or why not?

Sometimes yes, but when the library is crowded, it becomes difficult to find books quickly.

5. Have you experienced overcrowding? How does it affect you?

Yes, it affects my focus and I get distracted easily.

6. Would you use an online system to reserve books or seats?

Yes, because it will help me save time.

7. What features do you want in a smart library system?

Seat reservation, real-time updates, and book search system.

8. Do you prefer digital books or printed books? Why?

I prefer digital books because they are easy to access anytime.

Name: Paula Nicar

Age: 21

Course: BEED Student

Role: Library User

Persona Responses

1. How often do you use the library?

Almost every day during exam week.

2. What do you usually do in the library?

I study and prepare for exams.

3. What problems do you experience in the library?

There are no available seats most of the time.

4. Is it easy for you to find books? Why or

why not?

Not always, especially when many students are inside.

5. Have you experienced overcrowding?

How does it affect you?

Yes, it causes stress and I cannot focus well.

6. Would you use an online system to reserve books or seats?

Yes, it will make things easier.

7. What features do you want in a smart library system?

Seat availability, reservation system, and notifications.

8. Do you prefer digital books or printed books? Why?

Printed books because they are easier to understand.

Name: Ellen Joy Palmes

Age: 19

Course: BSSED Student

Role: Library User
